

## **CORPORATE QUALITY POLICY**

Saunders International provides engineering, construction and maintenance services in its areas of expertise.

Our goal is to be recognized as the provider of choice by delivering these services with first class safety performance, engineering excellence, innovative solutions and cost and time efficient outcomes.

We will achieve this goal by having an uncompromising commitment to manage and continually improve a Quality System which fully satisfies the requirements of AS/NZS ISO 9001:2008 and by engaging with the evolving needs of our customers and industry.

Our Corporate objectives for Quality and Safety shall be measured at defined intervals and are as follows:-

- Continually strive to reduce our Total Injury Frequency Rate by the strict application and improvement of our HSE management system
- Enhance customer satisfaction through surveys and feedback
- To develop new methods and apply new technologies to improve our competitiveness
- Target the reduction of nonconforming work
- Provide training in order to continually improve employee skill levels
- Use OHS leading indicators to drive improvement

The Quality Manual sets out the principal features of the Quality System and conforms to the requirements of AS/NZS ISO 9001:2008.
